

Primary Webinar: Getting Started with Blended Learning

This webinar will build on the experience of schools during Covid closures and explore practical aspects that teachers and school leaders should consider when getting started with blended learning within their unique context.

The webinar content will explore the practicalities, planning, pedagogy, privacy and policy considerations that schools should address when preparing to engage in a blended learning approach, drawing reference to the recently released circular 0074/2020 in this area.

Facilitated by PDST Digital Technologies Advisors
